SEASON 1

Call to Action

STAKE -> EARN -> TRAIN WHEN READY -> CLIMB

6-56 DOJO / DAY // 45 DAYS // TOP 3 DAILY // TOP 50 FINALE

THE WHOLE GAME

IN 60 SECONDS.

Every Kenji can stake from Level 0 and earn 6 DOJO per day. Training is optional and raises the daily rate toward 56 DOJO at Level 80.

01

STAKE

Stake at any level, including Level 0. Earnings begin at the NFT's current daily rate.

02

EARN

Level 0 earns 6 DOJO per day. Higher levels earn more, up to 56 DOJO per day.

03

TRAIN

Unstake when you want to train. Pick a trainer, pay DOJO, and accept the result.

04

RETURN

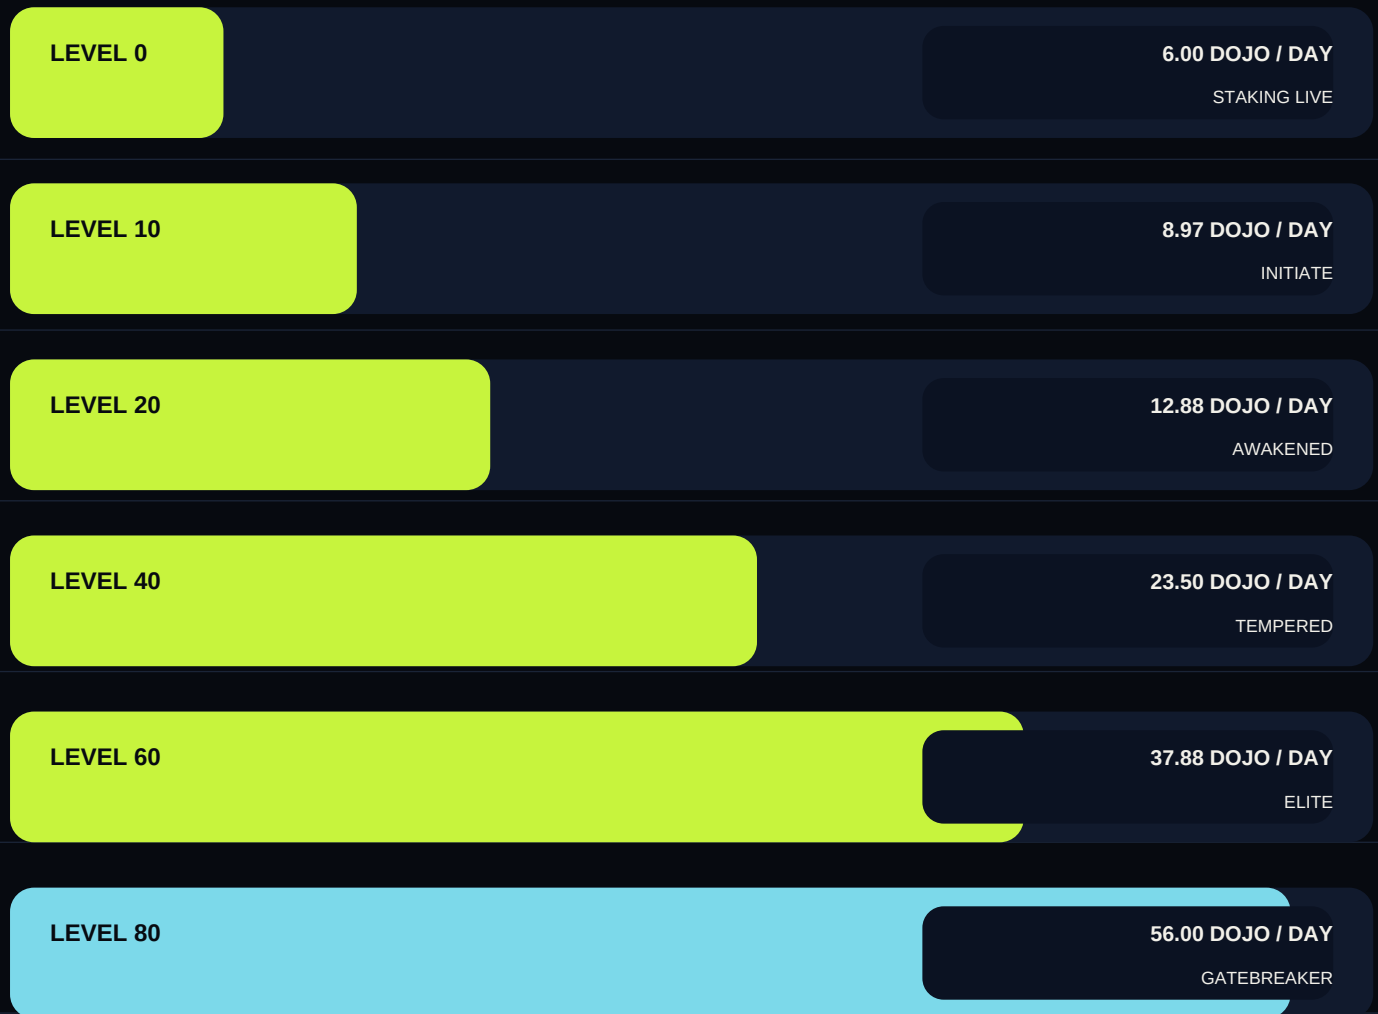

Stake again whenever you want. No ticket, cooldown, or extra training roll is required.

THE MOST IMPORTANT RULE

Training DOJO is paid before the roll and returns to the staking pool in every result: win, no change, or level loss.

YOUR LEVEL IS *YOUR EARNING POWER.*

Levels run from 0 to 80. Every level can stake: Level 0 earns 6 DOJO daily and Level 80 reaches the 56 DOJO maximum.

6 BASE + UP TO 50 FROM LEVELS

Daily rate = $6 + (0.25 \times \text{Level}) + (0.0046875 \times \text{Level} \times \text{Level})$. A risky trainer can reduce both level and earnings.

SAFE, BALANCED, *OR CHAOS.*

Each trainer changes two things: what you pay and what can happen to your level.

DISCIPLINED		RONIN		ONI	
LEVEL 0+	1.5X COST	LEVEL 5+	1.0X COST	LEVEL 15+	0.75X COST
+2	50%	-3	10%	-10	15%
+3	40%	0	15%	-5	20%
+4	10%	+2	30%	0	10%
		+4	30%	+5	25%
		+6	15%	+10	20%
				+15	10%
100% CHANCE TO GAIN LEVELS		75% CHANCE TO GAIN LEVELS		55% CHANCE TO GAIN LEVELS	

TRAINING IS ALWAYS OPTIONAL

Keep staking at the current rate or unstake to train once per 24 hours. No training result is ever required to enter staking.

YOU ALWAYS PAY *BEFORE THE ROLL.*

The base cost now scales with the NFT's current daily earning rate. The selected trainer then applies its multiplier.

UPDATED BASE TRAINING COST

$$10 + (1.25 \times \text{CURRENT DAILY RATE})$$

ROUNDED TO 0.01 DOJO

Current level	Base cost	Disciplined	Ronin	Oni
0	17.50	26.25	Locked	Locked
5	19.21	28.81	19.21	Locked
10	21.21	31.82	21.21	Locked

60	57.34	86.02	57.34	43.01
80	80.00	120.00	80.00	60.00

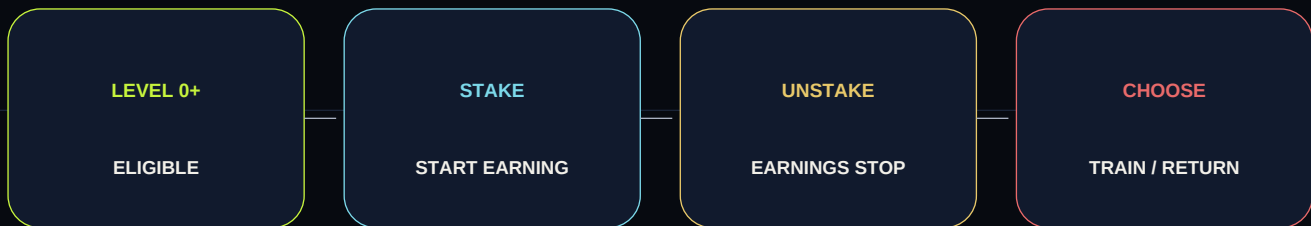

EXAMPLE: LEVEL 20 + RONIN

Pay 26.09 DOJO. Roll +4 -> Level 24. Roll 0 -> stay Level 20. Roll -3 -> Level 17.

THE 26.09 DOJO ENTERS THE STAKING POOL IN ALL THREE RESULTS.

STAKE WHEN YOU WANT. *LEAVE WHEN YOU WANT.*

Every level can stake. Earnings accrue only while the NFT is staked and stop when it is unstaked for training or transfer.

Level	DOJO / day	Seven-day total
0	6.00	42.00
10	8.97	62.78

NO LOCK. NO TRAINING TICKET.

Unstake whenever you want. Train only when you choose, then return to staking immediately at the new level.

TEN DAYS.

This example shows free staking, optional training, immediate returns to staking, and the risk of chasing a higher level.
